

Paraformaldehyde Test Kit, Standard

Brand: OFI Testing Equipment, Inc.

Product Code: 145-30

Availability: Out Of Stock

Lead Time: 14

Description

Most low pH fresh water and saltwater drilling fluids contain bacteria that attack starch material added to the drilling fluid for filtrate control. Paraformaldehyde is often added to destroy these bacteria, but it must be maintained within certain levels for best results. The Paraformaldehyde Kit contains all the apparatus and reagents required to measure the available preservative in pounds per barrel (lb/bbl).
Size: 6.25" x 5" x 3" (16 x 13 x 8 cm)
Weight: 1 lb (0.5 kg)
