Hydrometer Set

Brand:
Product Code: 153-52
Availability: 21
Lead Time: 14

Description

The Hydrometer Kit measures the true specific gravity of liquids in the range of 0.700 to 2.000 specific gravity. The kit consists of eight 265 mm / 10.5" glass hydrometers and a thermometer range -30° to 120°F in 1° divisions, all packed in a protective foam-lined carrying case. The hydrometer scale is standardized at 60°F. For maximum efficiency, special hydrometer cylinders are available in 250 mL and 500 mL sizes. Other specific gravity ranges and types of hydrometers are available upon request.

Size: 13.5" × 10" × 2.5" (34 × 25 × 6 cm)
Weight: 2 lb 10 oz (1.2 kg)
