Carrying Tool for HTHP Cell

Brand: OFI Testing Equipment, Inc.
Product Code: 170-40
Availability: 15
Lead Time: 14

Description

The Carrying Tool (#170-40) provides a safe, easy method of removing a hot filter press cell from the heating jacket after a high temperature test. This simple device attaches to the valve stem with a standard retaining pin. The T-handle provides a convenient handhold for lifting the cell out of the heating jacket. The cell can then be carried to a safe location for cooling.
