

# HWTT-100 Hamburg Wheel-Tracking Tester

**Brand:** GCTS

**Product Code:** 388-00

**Availability:** Out Of Stock

## Description

The GCTS HWTT-100 Hamburg Wheel-Tracking Tester is used to test submerged, compacted Hot Mix or Warm Mix Asphalt specimens as per AASHTO T 324 standard. The device consists of a reciprocating wheel that is rolled over the specimens while measuring the rate of permanent deformation.

A constant load of  $705 \text{ N} \pm 4.5 \text{ N}$  is applied to the specimens with a sinusoidal wheel speed of 1 ft/sec in a constant temperature controlled water bath up to  $70^{\circ}\text{C}$  ( $\pm 1.0^{\circ}\text{C}$ ). An LVDT jig is used for continuous measurement of permanent deformation along the path of the rolling wheel.

## Features

- Meets AASHTO T 324-04 standard
- Accommodates cylindrical or slab specimens.
- Software for automatic determination of Stripping Inflection Point (SIP), number of passes to SIP, number of passes to failure  $N_f$  and other calculated parameters
- Stainless steel construction with temperature controlled water bath up to  $70^{\circ}\text{C}$
- Available Suprapave Gyratory Compactor GRC-20 for specimen compaction
