Filter Press, Low Pressure, 6 Unit

Brand: OFI Testing Equipment, Inc.
Product Code: 140-50
Availability: Call for availability

Description

OFITE's Multi-Unit filter presses are perfect for lab environments when several tests must be run simultaneously. These units come complete with manifolds and all necessary air hoses and bleed-off valves. Suitable for laboratory use, OFITE Filter Presses have become the industry standard for low pressure/low temperature filtration testing. <h2>Features</h2> Stainless steel test cell Suitable for lab use Conforms to API specifications <h2>Specifications</h2> Maximum Pressure: 100 PSI (690 kPa) Pressure Source: Any non-hazardous gas Number of Units: 6 Filtration Area: 7.1 ± 0.1 in2 (4,580 ± 60 mm2) Filter Paper Size: 3.5” (9 cm) <h2>Components</h2> #140-55: Filter Paper #141-00-C: Test Cell #141-00: Cell Body #141-01: Base Cap #141-02: Top Cap #141-04: Screen #141-05: Gasket, Neoprene #141-09: Threaded Insert with Set Screw #141-10: T-Screw #141-13: Air Hose, Low Pressure, 15" #141-19: Air Hose Adapter #141-22: Felt Filter #143-06: Safety Bleeder Valve #153-16: Graduated Cylinder #170-34: Needle Valve <h2>Optional</h2> #141-15: Air Hose, Low Pressure, 6' #140-40-SP: Spare Parts Kit for #140-40 #140-50-SP: Spare Parts Kit for #140-50 #153-16: Graduated Cylinder, 25 mL × .2 mL #171-24-1: Nut for Pressure Fitting, Right-Hand Thread #171-24-2: Nipple for Pressure Fitting #170-36: Nitrogen Regulator with Gauges <h2>Part Number</h2> #140-50
